

Product Specification

GPS Tracker CE-W1

* Hardware

- Charging voltage: 110-220V
- Working temperature -20°—65°
- Humidity: 5%-95%
- Limited working temperature: -30°C -- -40°C, +80°C-- +85°C
- Storing temperature: -45°C -- +90°C
- Start-up time, hot start: <1.5s Warm start: <34s Cold start: <35s(Autonomous)
- Accurate positioning: 3.0 m 2D-RMS , DGPS: 2.5 m
- Speed Positioning: 0.1m/s, DGPS:0.05m/s
- Power consumption: standby 48mA(Depending on the system network state and the user's operation method)
- Charging port: DC 5V 3A

* Functions

- Guardianship party can get the location information directly through SMS query, you can choose to use monitoring system and non-use monitoring system.
- Call ,dual-entry call function.
- Auto-answer
- Low-power alarm
- SOS Emergency Alarm
- GPS timing function
